Chief Editor

From the Editor's desk,
Dear Brothers & Sisters
Happy republic day

Welcome you all to our grand launch of our long desired MEDI BEATS... PEARLS FOR PRACTITIONERS the once weekly e Medi Newsletter. The MEDI BEATS would facilitate circulation of knowledge and there will be no tachycardia or bradycardia and only optimal beats. This will fulfil the void in continuing medical education for all medical practitioners of all age, range and varied specialties. The intention is to cater to the needs of busy professionals' succinct meaty points relating to the subjects which are easily assimilable. The Newsletter will encompass varied branches inclusive of cutting-edge medicine to the mundane day to day practice. This Pot Pouri of articles and abstracts is focused to be served as a Buffet to facilitate choice selection by readers. This will also include the neglected subjects like Medical Ethics, Medical Law, Medical Audit Medicolegal and Med economics. This will be simplified yet inclusive of essentials. We have enrolled great many experiences dripping stalwarts of varying branches from all corners of the country and abroad. This is expected to sharpen and moderate the clinical skills. Coverage is extensive and focused towards more than 100,000 readerships. The Editorial Board is on the circuit for the launch on 26.01.2022 Republic Day a memorable date in deed. This will reach a hyper mature stage as we progress along to include and accommodate readers thoughts and suggestions with Feedback carefully assessed. I thank all the members of editorial board, Pearls contributors and IPCA laboratories Ltd for the kind support. Kindly register to receive this Newsletter and spread the message to your colleagues and friends.

Please also educate the public about Covid appropriate behaviour and the importance of vaccination.

TAKE CARE STAY SAFE
Will keep in touch

Best wishes

DR. A. MURUGANATHAN
