#### **DOCTORS DAY...REDEDICATE OURSELVES**

Doctor's day 2022 will be celebrated under theme "family doctors on the frontline". Theme is chosen to acknowledge fearless work of doctors on front line during covid 19 pandemic.

We feel proud to be Doctors as doctors are essential parts of everyone's life and a boon to humanity.

The day reminds people about the services and sacrifices made by doctors and healthcare workers during covid pandemic and also it commemorates the iconic physician Dr. Bidhan Chandra Roy for his selfless service and contribution to the medical field.

Soldiers save lives only during war and conflicts whereas doctor saves life every day. Doctors have to be recognized and respected as they fight disease and make the nation a healthy one and a happy one.

***On this doctor's day every one of us must rededicate our service to the humanity and take a pledge:***

That will do our service with passion, dedication and devotion.

That will Adhere and follow ethical practices

That we will try to involve ourselves in some research activities

That Will take care of not only community health but also our own health and family health

That will strike balance between home and work.

That we will actively involve and strive hard to control communicable and non communicable diseases in our country

That Promote working environment free from unfair discrimination and treat everyone rich or poor equally

That raise and act on concerns about patient safety

That demonstrate effective team working and leadership

That will contribute to teaching and training doctors and healthcare professionals that will give health education to the public including by acting as a positive role model.

We shall keep ourselves pure in character, be diligent in carrying for the sick, be modest, sober, and prompt in discharging duty without anxiety, conducting with propriety in the profession and all actions in life.

## *The Medical **Bulletin***

---

Let us provide a good standard of practice and care

Keep our profession knowledge and skills up to date

Recognize and work within the limits of our competence.

Let us be a role model among the public in all aspects and provide effective and efficient leadership.

*Let us continue to serve our nation and make India a better place to live*

*Best wishes*
